NEWS RELEASE

(FOR IMMEDIATE RELEASE)

UDOT Plans Lane Restriction at 13400 South and 4700 West in Herriman

12600 South recommended as alternate route

SALT LAKE CITY (July 15, 2011) – Construction crews on UDOT's Mountain View Corridor (MVC) are scheduled to change the configuration of 13400 South and 4700 West from two lanes in each direction to one lane in each direction as early as Monday afternoon, July 18. This change will allow crews to reconstruct the south side of 13400 South to tie-in to the Mountain View Corridor. Crews anticipate this traffic pattern will be in place until fall 2011*.

13400 South is a highly traveled area, and UDOT wants motorists to be prepared and plan ahead. With two lanes open in each direction, 12600 South is recommended as an alternate route.

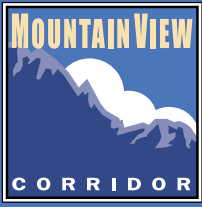

Mountain View Corridor includes construction of a 15-mile segment north from Redwood Road (at approximately 16000 South) to 5400 South. As part of the initial construction, UDOT will build two lanes in each direction with signalized intersections where future interchanges will be located. Future construction will build out the remainder of the corridor by adding interchanges and more lanes to achieve a fully functional freeway. A transit solution is also planned on 5600 West.

UDOT reminds drivers to exercise caution when traveling through the construction area. Be patient, buckle up and obey posted speed limits.

For more information on the planned design and all other project details, visit the Mountain View Corridor website (udot.utah.gov/mountainview). Drivers can stay informed on all construction activities by signing up for weekly e-mail updates at udot.utah.gov/mountainview and following the project on [facebook.com/mountainviewcorridor](https://www.facebook.com/mountainviewcorridor) and twitter.com/udotmvc.
